CONTENTS

BANINA N. N., Changeability of ciliates of the genus *Apiosoma* 289

BARUŠ V., *Dudekemia cubana* sp. n. (Nematoda, Rhigonematidae) from the Cuban millipede *Orthomorpha coarctata* 269

BARUŠ V., Studies on the nematode *Subulura suctoria* I. Morphological and metrical variability 303

BARUŠ V., Additional notes on nematodes parasitizing passeriform birds of Cuba 311

BARUŠ V., MORAVEC F., Three interesting nematodes from *Aonyx cinerea* (Carnivora) from Malaya 235

ČERKASOVOVÁ A., Energetic metabolism of *Tritrichomonas foetus* II. Accumulation of pyruvic acid and thiamine-deficient cultures 297

ČERNÁ Ž., SENAUD J., *Eimeria pragensis* sp. n., a new coccidian parasite from the intestine of mice (*Mus musculus*) 171

ČERNÝ V., Mallophaga of domestic chickens from Cuba 40

ČERNÝ V., *Eomenacanthus cornutus* (Schömmer), (Mallophaga) — a new parasite of domestic fowl in Czechoslovakia 136

ČERNÝ V., Trois genres nouveaux des *Acariens plumicoles* (Analgoidea) de Cuba 153

ČERNÝ V., Six new nasal mites (Mesostigmata, Ptilonyssidae) from Cuban birds 227

ČERNÝ V., The hypopi of Hypoderidae (Sarcoptiformes) parasitizing Cuban birds 271

ČERNÝ V., The tick fauna of Cuba 279

ČERNÝ V., About some systematic and nomenclatoric problems within the subgenus *Pholeioixodes* (Ixodidae) 348

ČERVA L., The effect of some drugs on the growth of the pathogenic strain of *Hartmannella* (*Acanthamoeba*) *castellanii* in vitro 357

CHMELA J., On the developmental cycle of the common tick (*Ixodes ricinus* L.) in the North-Moravian natural focus of tick-borne encephalitis 313

CHVÁLA M., JEŽEK J., Immature stages of five European *Hybomitra* species of the *bimaculata*- and *montana*-groups (Diptera, Tabanidae) 329

CLARK G. M., PHILIP C. B., LAVERNE FADNESS, Observations on the effect in mice of concurrent infections with migratory *Ascaris columnaris* larvae and certain neurotropic arboviruses 67

DANIEL M., Nests of small terriocolous mammals as the environment of nidicolous ectoparasites 137

DANIELOVÁ V., An attempt at infecting the tick *Ixodes ricinus* L. with the Ťahyňa virus . . 379

DANIELOVÁ V., MINÁŘ J., Experimental overwintering of the virus Ťahyňa in mosquitoes *Culiseta annulata* (Schrk.) (Diptera, Culicidae) 285

DASH M., To the fauna of ixodid ticks of Mongolia 18

DENHAM D. A., Immunity of *Trichinella spiralis* IV. Passive immunity in mice. 183

DESHMUKH P. G., Two new species of the genus *Dracunculus* Reichard, 1759 from snakes . 105

DESHMUKH P. G., *Paranchocerca thapari* sp. n. from *Francolinus francolinus* 365

DUSBÁBEK F., Generic revision of the myobiid mites (Acarina: Myobiidae) parasitic on bats 1

DUSBÁBEK F., New species of nasal mites (Acarina: Rhinonyssidae) from Cuban birds . . . 213

DUSBÁBEK F., Macronyssidae (Acarina: Mesostigmata) of Cuban bats 321

DVOŘÁK J., Survey of animals examined on the presence of adiaspores of *Emmonsia crescens* Emmons et Jellison, 1960 349

DYKOVÁ I., *Elaphostrongylus cervi* Cameron, 1931 in the central nervous system of red deer (*Cervus elaphus*) 74

ERGENS R., The suitability of ammonium picrate-glycerin in preparing slides of lower Monogenoidea 320

ERGENS R., DULMAA A., Monogenoidea from *Cyprinus carpio haematopterus* and *Carassius auratus gibelio* (Cyprinidae) from Mongolia 201

FEIDER Z., MIRONESCU I., Acariens de la famille Rhinonyssidae (Parasitiformes) parasites dans la cavité nasale des oiseaux du genre *Lanius* L., de la Roumanie 19

Gibson T. E., Failure to control the acquisition of worm burden by lambs by maternal anthelmintic treatment during pregnancy 177
Groschaft J., First finding of the trematode *Macyella postgonoporus* Neiland, 1951 in Europe 265
Johnson S., A new nematode of the genus *Rictularia* (Spiruroidea) from the Indian gerbil, *Tatera indica indica* 371
Kendall S. B., Hebert Nancy, Peirce M. A., Observations on a possible relationship between intensity of infection with *Fasciola hepatica* and the efficacy of chemotherapy . 207
Koller M., Grešíková M., Berencsy Gy., Jr., Schablik M., Hemagglutination-inhibiting antibodies to arboviruses in the population of Hajdu-Bihar district, Hungary 75
Kolman J. M., Isolation of the tick-borne encephalitis virus from the squirrel *Sciurus vulgaris* 80
Korenberg E. I., Lebedeva N. N., Distribution and some general features of the ecology of *Ixodes trianguliceps* Bir. in the Soviet Union 143
Lom J., On a new taxonomic character in myxosporidia, as demonstrated in descriptions of two new species of *Myxobolus* 97
Lom J., *Myxobolus undulatus* sp. n., a new myxosporidian from minnows (*Phoxinus phoxinus*) 296
Lom J., Weiser J., Notes on two microsporidian species from *Silurus glanis* and on the systematic status of the genus *Glugea* Thélohan 193
Málková D., Hodková Z., Chaturvedi R., Overwintering of the virus Ťahyňa in hedgehogs kept under natural conditions 245
